

## Claridge EZ Stick Skins

### Features:

- LCS Porcelain Enamel Steel Skins backed with double-sided tape make resurfacing existing boards a breeze
- EZ Stick Skin installations use no solvents, eliminate drying time and are always a consistent thickness
- Face sheets are shipped precut to customer's specifications
- EZ Stick Skins are available in 4'0" heights and in lengths up to 12'0"
- Writing surface is guaranteed for 50 years

### Uses:

- Designed to install over existing boards – no need to remove old boards
- Converts old defective boards into permanent new boards of superior quality
- Porcelain enamel steel surface is magnetic

### Installing EZ Stick Skins

**Step 1**  
Measure inside existing trim to determine size of EZ Stick skin.

**Step 2**  
Clean old board surface, removing any obstructions.

**Step 3**  
Resting EZ Stick skin on top of bottom trim or on tray, verify fit before removing tape.

**Step 4**  
After size has been verified, remove the paper backing exposing the tape. Realign skin before making contact with old board surface.

**Step 5**  
Press the skin in at the bottom, working your way up from the center to the sides. Roll entire surface with a pressure roller applying as much pressure as possible to ensure a good bond.
